

Serial No.: 08/459,141
Filed: 2 June 1995

In the Claims:

Please add the following Claim:

81
-24. A vaccine comprising a truncated, membrane-free derivative of a membrane-bound polypeptide, said derivative being devoid of membrane-binding domain whereby the derivative polypeptide is free of said membrane, and having exposed antigenic determinants capable of raising neutralizing antibodies against a pathogen, wherein the truncated polypeptide is a derivative of a herpes glycoprotein.

REMARKS

Applicants believe the case is now in condition for allowance and earnestly solicits such.

Respectfully submitted,
